

Web Marketing Company launched to serve Canadian Entrepreneurs

For Immediate Release

(Toronto)The Venture Catalysts has launched its web hosting and marketing company, TVC-Hosting.com, to assist the business development objectives of Canadian entrepreneurs.

“Providing a complete web marketing solution is a part of our commitment to developing successful Canadian Entrepreneurs,” said Jim Adams, Managing Partner of The Venture Catalysts.

For over 4 years we have been providing our clients with:

- Web Hosting that is affordable, reliable web hosting that is as flexible as the clients it serves. The packages include email, control panels, e-commerce capability and more.
- Domain Name Registration services that ensure that your company’s brand is both protected and enhanced by registering all possible names that can point potential business to your site.
- Search Engine Optimization is a process to regularly update search engines to your site the key search words your target audience bases it online research on.
- Directory Registration is an integral part of expanding the ability of potential clients finding you by identifying and connecting to the web-based directories that your target audience relies on for product and service research.
- Web Site Design that enhances your brand, engage potential clients and provide data and sales opportunities.
- Blogging is an effective way to engage online communities in a discussion on issues and services important to your target audience.
